SOME of MY WORKS

My Personal Portfolio Website

📅 2022   📄 React, NextJS, TypeScript, Pure CSS

About: Re-designed my personal portfolio website from scratch with actual techs. Fully responsive, dark/light theme support, used Framer-Motion, Rough-Notation and VantaJS for animations. Vercel for deployment with my personal domain.

GitHub   : github.com/pribrahimsari/isari.me

CRM (Customer Relationship Management)

📅 2018 – 2022   📄 Laravel, LAMP Stack (Linux Apache MySQL PHP), jQuery + jQuery Mobile

About: Completely developed from scratch by me for my customer's specific requirements. DB design, backend and frontend were developed by me. Some modules such as 'Activities' have mobile support also. Still in use.

Wedding Invitation | Personal Project

📅 2013   📄 CodeIgniter, LAMP (Linux Apache MySQL PHP), jQuery + jQuery Mobile

About: I got married in 2013. In invitation card of our ceremony, we used QR codes embedded with the link of this project. All invitees shared their regards using contact form and we published them at cine-vision to all guests during the ceremony. Beside this, invitees could find location address by using this website. I used parallax effects on this project. Mobile version is also available.

İSC Security Consultancy | Company Website

📅 2019   📄 WordPress, LAMP Stack

About: Official website of my corporate customer. 2 languages support. Responsive and mobile friendly. Used WordPress and premium themes. Still active.

Link   : iscd.com.tr

E-Meslek | Startup With my Teammate

📅 2012   📄 CodeIgniter, LAMP Stack, jQuery

About: A community platform and forum to gather members of all kind of professions in Turkey. Developed both public and admin interfaces with my teammate.

WTEO Turkey | Sports Organization / Federation

📅 2010   📄 PHP, MySQL, jQuery

About: Official website of a sports organization in Turkey. It has common template/layout for HeadQuarter, and supports sub-schools in separate provinces to publish their content using the corporate layout/template of the organization. Also, all trainers/school-admins may login and may add/edit content which they have permission to do. Website is not active anymore.
